PART Env-Ws 385 PROTECTION OF SURFACE WATER SOURCES USED FOR DRINKING
WATER SUPPLIES - RESERVED

Source. #6521, eff 6-4-97 (See Revision Note at chapter heading for Env-Ws 300)

PART Env-Ws 386 RULES FOR PROTECTING THE PURITY OF REGULATED WATERSHEDS

Statutory Authority: RSA 485:23 and RSA 485:24

Env-Ws 386.01 Purpose. The purpose of these rules is to recognize the importance of those surface water supplies that are used as sources of public water supply and to provide methods for reasonable watershed management so as to maintain high levels of water quality.

Source. #6521, eff 6-4-97 (See Revision Note at chapter heading for Env-Ws 300)

Env-Ws 386.02 Applicability to Regulate Watersheds. These rules apply only to the particular watershed identified in the introductory paragraph(s) of each section. The rules in Env-Ws 386.01 through Env-Ws 386.04 apply to Env-Ws 386.10 through Env-Ws 386.68.

Source. #6521, eff 6-4-97 (See Revision Note at chapter heading for Env-Ws 300)

Env-Ws 386.03 Restriction of Activities Beyond The Setback From Streams and Shorelines.

(a) Many of the watershed rules in Env-Ws 386.10 through Env-Ws 386.68 restrict activity beyond the shoreline setback if such activity, in the division's judgement, would endanger water quality.

(b) Criteria for determining that an activity beyond the shoreline setback can endanger water quality shall be:

- (1) Type of contaminant;
- (2) Amount of contaminant generated by the activity;
- (3) Persistence of the contaminant;
- (4) Distance from the contaminant locus to water supply intake; and
- (5) Application of best management practice (BMP) or best available treatment (BAT).

Source. #6521, eff 6-4-97 (See Revision Note at chapter heading for Env-Ws 300)

Env-Ws 386.04 Waivers.

(a) A waiver of a restriction in any one watershed may be sought.

(b) Such waiver shall be evaluated as follows:

(1) All requests for waivers shall be submitted to the division.

(2) Each request for a waiver and determination of essential compliance shall include the following information:

- a. A specific reference to the paragraph of the section for which a waiver is being sought;
- b. A full explanation of why a waiver is necessary and demonstration of hardship caused if the rule is adhered to;
- c. A full explanation of the alternatives for which a waiver is sought, with backup supporting data; and
- d. A full explanation of how the granting of the waiver is consistent with the intent of RSA 485:24 and RSA 485:25 and would have a just result.

(3) The division shall approve a request for waiver upon finding that:

- a. The proposal shall be at least equivalent to the specific requirement contained in the rule; or
- b. If the proposal was not equivalent to the requirement contained in the rule, it shall be adequate to ensure that the intent of RSA 485:24 and RSA 485:25 is met.

(c) No waiver shall be granted which, in the judgement of the division, contravenes the intent of the rules.

(d) Waivers granted in writing as part of the approval, shall expire with the approval and shall be transferable with the approval.

(e) The applicant shall complete a formal waiver request which contains all of the above requirements. The owner shall co-sign and acknowledge agreement and consent to all waiver requests.

Env-Ws 386.10 Protection of the Purity of Bradley Lake and Its Watershed.

(a) The purpose of this section is to protect the purity of the water of Bradley Lake, which is the principle public drinking water supply for the town of Andover.

(b) This section shall be effective within the Bradley Lake watershed above the lake outlet which is located at approximate latitude 43°25' 02", longitude 71° 49'44", in the towns of:

(1) Andover; and

(2) Salisbury.

(c) Any person violating this section shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Andover Precinct and its agents may enter, at reasonable times, any land or property within the drainage areas tributary to the Bradley Lake public water supply in the towns of Andover and Salisbury for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.04 and the Andover Village Precinct. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The Andover Precinct shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Bradley Lake or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain a privy, pig-pen, stable, or other buildings or structure in which horses, cattle, swine or other animals or fowls are kept within 75 feet of Bradley Lake or within 75 feet of any inlet or tributary thereto;

(2) A person shall not permit urine, sink water, or water that has been used for washing or cleansing materials, persons or food, to run into said lake, or into any inlet thereof, or into any cesspool, septic tank or other excavation or onto the surface of any ground within 75 feet of said lake, meaning the high water mark;

(3) A person shall not deposit or throw a dead animal, or fish, or parts thereof, kitchen waste, garbage or refuse of any kind, nor manure of either human or animal origin, into said lake, nor shall they leave or permit such materials to remain within 75 feet thereof;

(4) A person shall not permit the activities or conditions described in (1), (2) and (3) above within the watershed area tributary to Bradley Lake even though beyond the minimum limit of 75 feet, if the purity of the water thereby shall be deemed by the division to be endangered in accordance with the criteria in Env-Ws 386.03;

(5) A person shall not permit sawdust to be thrown or allowed to fall into said lake or into any inlet thereto;

(6) A person shall not permit any domestic animals to enter said lake;

(7) A person shall not swim or bathe, nor shall a person fish in the waters of said lake south of a line drawn from a point on the easterly shore approximately 1700 feet north of the present water supply intake to the point on the westerly shore located by describing an angle of 90° from the true north direction. Said line is to be located by the erection of permanent bounds; and

(8) A person shall not use seaplanes on said lake.

Env-Ws 386.11 Protection of the Purity of Jackson Pond and Sky Pond and Their Watersheds.

(a) The purpose of this section is to protect the purity of water of Jackson Pond and Sky Pond, which are the principle public drinking water supply for the town of Ashland.

(b) This section shall be effective within the Jackson Pond and Sky Pond watersheds above the dam which is located at approximate latitude 43°40'35", longitude 71°35'45", in the town of New Hampton.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Ashland and its agents may enter at reasonable times any land or property within the drainage areas tributary to the Jackson Pond and Sky Pond public water supply in the town of New Hampton for the purpose of investigating watershed sanitation or other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.04 and the town of Ashland. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said ponds.

(g) The town of Ashland shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Jackson Pond and Sky Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain a building or structure of any kind in which animals or fowl are kept within 75 feet of Sky Pond, Jackson Pond, the connecting brook between said ponds and the outlet from Jackson Pond downstream to the outlet of the water works intake reservoir, or within 75 feet of any outlet or tributary thereto;

(2) A person shall not permit water used for washing or cleansing either materials, persons or food into Jackson Pond or Sky Pond;

(3) A person shall not throw or deposit any dead animals, fish or parts thereof any food or article perishable or decayable any excreta, either human or animal, into said waters or leave or permit any such waste to remain on the surface of the ground within 75 feet thereof;

(4) A person shall not throw sawdust or allow sawdust to fall into said waters or into any inlet or tributary thereto;

(5) A person shall not bathe or swim in said waters;

(6) A person shall not throw, deposit or allow to remain upon the ice of said waters, any materials such as are described in (2), (3), and (4) above; and

(7) A person shall not use a seaplane on Jackson Pond or Sky Pond.

Env-Ws 386.13 Protection of the Purity of Albany Brook and Its Watershed.

(a) The purpose of this section is to protect the purity of water of Albany Brook which is the principle drinking water supply for Bartlett Village Precinct.

(b) This section shall be effective within the Albany Brook watershed above the dam which is located at approximate latitude 44°03'38", longitude 71°17'35", in the towns of:

(1) Bartlett; and

(2) Albany.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Bartlett Village Precinct and its agents may enter, at reasonable times, any land or property within the drainage area tributary to the Albany Brook public water supply in the towns of Bartlett and Albany for the purpose of investigating watershed sanitation or other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.04 and the Bartlett Precinct. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said brooks.

(g) The Bartlett Village precinct shall post a summary of the prohibitions contained in (h) below at public access locations where persons might reasonably be expected to access Albany Brook or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain a privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of Albany brook's, meaning the high water mark, or within seventy-five feet of any stream tributary to said brook, except in such cases as the local board of health may permit;

(2) A person shall not allow sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, to run into said brook thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said brook, meaning high water mark, within 75 feet of any stream tributary thereto;

(3) A person shall not throw or deposit any dead animal, fish or parts thereof, or any food or any article perishable or decayable, or any dung either human or animal, kitchen waste, swill, or garbage into said brook, or leave or permit any such wastes to remain within 75 feet thereof meaning the high water mark, or into any brook, or into any stream tributary thereto, or within 75 feet of such stream or tributary;

(4) A person shall not deposit or allow to fall any sawdust, shavings, apple pomace, or waste from mills or factories into said stream, or upon their banks so near as to be reachable by the high water level, or into any stream tributary thereto;

(5) A person shall not bathe in said brook;

(6) A person shall not fish in said brook;

(7) A person shall not allow any of the structures or conditions described in (1), (2), (3), and (4) above, beyond the minimum limit of 75 feet, if the purity of the water thereby shall be deemed by the division in accordance with Env-Ws 386.03 to be endangered; and

(8) A person shall not throw, deposit or allow to remain upon the ice of the waters of said pond or any stream tributary thereto, any matter, waste, or materials such as are described in (2), (3), and (4) above.

Env-Ws 386.14 Protection of the Purity of the Upper Ammonoosuc River Godfrey Dam and Its Watershed.

(a) The purpose of this section is to protect the purity of water of Upper Ammonoosic River which is a principle drinking water supply for the city of Berlin.

(b) This section shall be effective within the Ammonoosuc River watershed above the Godfrey Dam which is located at approximate latitude 44° 29'04", longitude 71°19'12", in the:

- (1) City of Berlin;
- (2) Town of Kilkenney; and
- (3) Town of Randolph.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the city of Berlin and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Ammonoosuc River public water supply in the city of Berlin, and towns of Kilkenney, and Randolph for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.04 and the Berlin Water Works department. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said reservoir.

(g) The city of Berlin shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access the upper Ammonoosuc River or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue, or maintain a privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of the high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets, except in such cases as the local board of Health may permit;
- (2) A person shall not allow sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, to run into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said ponds, meaning the high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto, except by consent, and under such rules and conditions as may be given by the local board of health, upon approval of the division;

(3) A person shall not throw or deposit any dead animal, or fish, or parts thereof, or food, or any article perishable or decayable, or any dung either human or animal, kitchen waste, swill, or garbage into said pond, or leave or permit any such wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary;

(4) A person shall not deposit or allow sawdust, shavings, apple pomace, or waste from mills or factories to fall into said pond, or upon their banks so near as to be reachable by the high water level, or into any stream tributary thereto;

(5) A person shall not bathe in said pond;

(6) A person shall not allow structures or conditions described in (1), (2), (3) and (4) above, beyond the minimum limit of 75 feet, if the purity thereby of the water shall be deemed by the division in accordance with Env-Ws 386.03 to be endangered;

(7) A person shall not throw, deposit or allow to remain upon the ice of the waters of said pond, or of any bay, cove, or inlet thereof, or of any stream tributary thereto, any waste or materials such as described in (2), (3) and (4) above; and

(8) A person shall not use seaplanes on said pond.

Env-Ws 386.18 Protection of the Purity of Canaan Street Lake and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Canaan Street Lake which is the principle drinking water supply for the town of Canaan.

(b) This section shall be effective within the Canaan Street Lake watershed above the outlet dam which is located at approximate latitude 43°39'30", longitude 72°01'45", in the town of Canaan.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Canaan and its agents may enter at reasonable times any land or property within the drainage areas tributary to the Canaan Street Lake public water supply in the town of Canaan for the purpose of investigating sanitation within the watershed and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.03 and the town of Canaan. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The town of Canaan shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Canaan Street Lake or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain a building or structure of any kind in which animals or fowl are kept, within 75 feet of Canaan Street Lake or within 75 feet of any inlet or tributary thereto, except in such cases as the board of water commissioners may allow, and under such rules as it may require;

(2) A person shall not permit wastes, or waters that have been used for washing or cleansing either materials, persons, or food, to run into said lake, or into any inlet or tributary thereto;

(3) A person shall not throw or deposit any dead animal, fish, or parts thereof, or any food or article perishable or decayable, or any dung either human or animal, into said lake, or permit any above wastes to remain within 75 feet of any inlet or tributary thereto, or on the ground surface within 75 feet of any inlet tributary thereto;

(4) A person shall not throw any sawdust or allow any sawdust to fall into said lake, or into any inlet or tributary thereto;

(5) A person shall not trespass, boat, bathe, swim, fish or carry on any activity whatever whether of recreational, occupational or other nature, in the waters or on the ice of Canaan Street Lake, south of a line about 1,200 feet northwest of the Lake's southern most part , beginning at a point on the westerly shore at the center line of the road which exists adjacent to the present property line between Gorand and Lamson, and extending across said Lake to the stone jetty on the easterly shore. The 2 extremities of such a line to be properly marked by the local water works authority so that they can be readily identified and observed by the general public;

(6) These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond; and

(7) A person shall not throw, deposit or allow to remain upon the ice of the waters of said pond, or upon that of any inlet or stream tributary thereto, any matter, waste, or materials such as are described in (2), (3) and (4) above.

Env-Ws 386.19 Protection of the Purity of Whitewater Brook, Rice Reservoir and Dole Reservoir and Their Watersheds.

(a) The purpose of this rule is to protect the purity of water of Whitewater Brook and reservoir, Rice Reservoir and watershed and Dole Reservoir and watershed, which are principle drinking water supplies for the city of Claremont.

(b) This section shall be effective within:

(1) The Whitewater Brook watershed above the Whitewater dam which is located at approximate latitude 43°25'22", longitude 72° 18'30", in the city of Claremont and towns of Cornish and Croydon.

(2) The Rice Reservoir watershed above the Rice dam which is located at approximate latitude 43°25'07", longitude 72° 19'25", in the city of Claremont; and

(3) The Dole Reservoir watershed above the Dole dam which is located at approximate latitude 43° 23'20", longitude 72° 19'58", in the city of Claremont.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Claremont and its agents may enter at reasonable times any land or property within the drainage areas associated within the tributaries to the Whitewater, Rice and Dole public water supply in the city of Claremont, and towns of Cornish and Croydon for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.08 and the city of Claremont. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said reservoirs.

(g) The city of Claremont shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Whitewater, Rice or Dole reservoirs or their watersheds or tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain a structure of any kind in which animals or fowl are kept, within 75 feet of any inlet or tributary thereto except in such cases as the board shall allow and under such rules as it shall require;

(2) A person shall not allow wastes or waters that have been used for washing or cleansing either material, person or food to run into said brooks or any inlet or tributary thereof;

(3) A person shall not throw or deposit any dead animal, fish or parts thereof, or food or any article perishable or decayable or any excreta, either human or animal, into said brooks, or leave or permit above wastes to remain on the surface of the ground within 75 thereof or into any inlet or tributary thereto or on the ground surface within 75 feet of any inlet or tributary;

(4) A person shall not throw any sawdust or allow any sawdust to fall into said brooks or any inlet or tributary thereto;

(5) A person shall not trespass, boat, bathe, swim, fish or carry on any activity whatever whether of recreational, occupational, or other nature, in the waters or on the ice of Whitewater Brook Reservoir and Intake Reservoir located on Whitewater Brook; and

(6) A person shall not throw, deposit or allow to remain upon the ice of the waters of said brooks or upon that of any inlet or stream tributary thereto, any matter, waste or materials such as are described in (2), (3), and (4) above.

Env-Ws 386.21 Protection of the Purity of Penacook Pond and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Penacook Pond which is a principle drinking water supply for the city of Concord.

(b) This section shall be effective within the Penacook Pond watershed above the outlet dam which is at approximately latitude 43°14'33", longitude 71°34'40", in the city of Concord.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the city of Concord and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Penacook Pond public water supply for the purpose of investigating watershed sanitation or other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.04 and the city of Concord. These provisions shall not apply to employees of the utility engaged in the performance of necessary duties for the protection and control of said pond.

(g) The city of Concord shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Penacook Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain any cesspool, privy, or other place for the reception, deposit or storage of human excrement, any urinal or water-closet not discharging into a sewer, any pig-pen, stable, or other building or structure in which horses, cattle, swine, other animals, or fowls are kept, within 200 feet of the high water mark of Penacook Pond, meaning to include that part of the same sometimes called Forge Pond, or stream, or tributary to said lake, bays, coves, or inlets except upon the approval of the division;

(2) A person shall not locate, construct, build or maintain any stable, building or other place as above enumerated, within 200 feet of the high water mark of Penacook Pond, or within 200 feet of any open water flowing as forsaid into said pond unless suitable or adequate provisions is made to prevent manure or other polluting matter from flowing or being washed into said pond or such open water;

(3) A person shall not run sink drainage, urine, or water that has been used for washing or cleansing either persons or materials into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 200 feet of any stream tributary thereto;

(4) A person shall not throw or deposit any dead animal, or fish or parts thereof or food, or any article perishable or decayable or any excrement, either human or animal, kitchen waste, swill, or garbage, into said pond or leave or permit any of the above wastes to remain, within 200 feet of the high water mark thereof, or into any bay, cove, or inlet of said lake, or into any stream tributary thereto, or within 200 feet of such bay, inlet or stream;

(5) A person shall not allow any human excrement to be kept in, or deposited or discharged into any cesspool, privy or other receptacle situated within 200 feet of the high water mark of said pond, or within 200 feet of any open waters which flow directly or ultimately into said pond;

(6) A person shall not throw sawdust, or allow sawdust to fall into said pond or into any stream tributary thereto;

(7) No person shall bathe or swim in said pond, nor shall any person build, continue or maintain any swimming pool, or other contrivance of any nature for public or private bathing whose waters do not discharge into a sewer or cesspool constructed as approved or required by the board of health of the city of Concord, within 200 feet of the high water mark of said pond;

(8) A person shall not throw, or allow to remain upon the ice of the water of said pond, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter, waste or materials described in (3), (4), (5) and 6 above;

(9) A person shall not drive, guide or speed any cattle, horses, or other animals used for teaming, driving, or speeding, upon the ice of said pond, except by permission of and under rules established by the city of Concord;

(10) A person shall not construct or maintain a system of sewers or other works for the collection, conveyance, disposal, or purification of sewage or drainage, or any other putrescible matter whatsoever, except in accordance with plans first approved in writing by the division, at any place within the drainage area of said pond. A person shall not construct or maintain any private or separate sewer having an outlet upon or into the ground within 200 feet of the high water mark of any reservoir, lake, pond, stream, ditch, watercourse or other open waters, the water of which flows or drains into said pond;

(11) A person shall not locate or construct a public or private hospital, or other place intended for the reception or treatment of the sick, at any place within the drainage area of said pond, until the location or construction thereof has been approved in writing by the division;

(12) A person shall not permit any sewage, garbage, manure, or putrescent matter, whatsoever, in any place or locality from which the seepage, drainage, or washage may endanger the purity of the water of the said pond or its tributaries; and

(13) A person shall not permit the condition or practice of whatever kind that may endanger the purity of the waters of said pond or its tributaries.

Env-Ws 386.27 Protection of the Purity of Whittle Brook and Goffstown Reservoir and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Whittle Brook and Goffstown Reservoir which is a principle drinking water supply for the Goffstown Village Precinct.

(b) This section shall be effective within the Whittle Brook watershed above the dam which is located at approximate latitude 42°59'47", longitude 71°35'45", in the town of Goffstown.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Goffstown Village Precinct and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Whittle Brook public water supply in the town of Goffstown for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.04 and the Goffstown Village Precinct. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said brook.

(g) The Goffstown Village Precinct shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Whittle brook or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain any privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of the high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets, except in such cases as the local board of health in accordance with Env-Ws 386.04 may permit and under such rules as they may require;

(2) A person shall not run sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said ponds meaning the high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream's tributary thereto, except in accordance with Env-Ws 386.04, and under such rules and conditions as may be given by the local board of health;

(3) A person shall not throw or deposit any dead animal, or fish, or parts thereof, or food, or any article perishable or decayable, or any dung either human or animal, kitchen waste, swill, or garbage into said pond, or leave or permit any of the above wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary;

(4) A person shall not deposit or allow to fall into said pond, or upon their banks so near as to be reachable by the high water level, or into any stream tributary thereto, any sawdust, shavings, apple pomace, or waste from mills or factories;

(5) A person shall not be permitted to bathe in said pond;

(6) A person shall not be permitted to fish on said pond;

(7) A person shall not allow any of the structures or conditions described in (2), (3), and (4) above, beyond the minimum limit of 75 feet, if the purity of the water shall thereby be deemed by the water division in accordance with Env-Ws 386.03 to be endangered;

(8) A person shall not allow any matter, waste, or materials such as are described in (2), (3), and (4) above to be thrown, deposited, or allowed to remain upon the ice of the waters of said pond, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto; and

(9) A person shall not use a seaplane on said pond.

Env-Ws 386.30 Protection of the Purity of Tobey Reservoir and Its Watershed.

(a) The purpose of this rule is to protect the purity of the water of the Tobey Reservoir which is the principle drinking water supply for the town of Greenville.

(b) This section shall be effective within the Tobey Reservoir watershed above the dam located at approximate latitude 42°48'08", longitude 71°50'15", in the towns of:

(1) New Ipswich; and

(2) Temple.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Greenville, the division of water, dam bureau, and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Tobey Reservoir public water supply in the towns of New Ipswich and Temple for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Greenville in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond nor shall said restrictions apply to employees of New Hampshire's fish and game department engaged in the removal of stock fish from the reservoir under conditions approved by that agency.

(g) The town of Greenville, and/or the division of water, dam bureau, shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access the Tobey Reservoir or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain any structure of any kind in which animals or fowls are kept, within 75 feet of Greenville reservoir or within 75 feet of any inlet or tributary thereto except in such cases as the local board of health may allow, upon the approval of the division, and under such rules as it may require;

(2) A person shall not discharge sewage waste water as defined in RSA 485-A, treated or otherwise into said reservoir or any inlet or tributary thereto;

(3) A person shall not throw or deposit dead animals, fish, or parts thereof, food, or any article perishable or decayable, any excreta either human or animal, into said reservoir, or leave or permit any such wastes to remain on the surface of the ground within 75 feet thereof, or into any inlet or tributary thereto, or on the ground surface within 75 feet of such bay, cove, inlet, stream or tributary;

(4) No person shall bathe or swim in said reservoir or any inlet or tributary thereto;

(5) A person shall not use boats propelled by means of inboard or outboard motors on the waters of said reservoir;

(6) A person shall be prohibited from all activity whether of recreational, occupational or other nature, in or on the waters of said reservoir and its tributaries;

(7) A person shall not throw, deposit or allow to remain upon the ice of the waters of said reservoir or upon the ice of any inlet or stream tributary thereto, any sewage or waste as defined in (2) above; and

(9) A person shall not use a seaplane on any portion of the said reservoir.

Env-Ws 386.32 Protection of the Purity of Camp Brook Including the Upper & Lower Hanover Reservoir and Hanover Center Reservoir and their Watersheds.

(a) The purpose of this rule is to protect the purity of water of Camp Brook, the Upper & Lower Hanover Reservoir and Hanover Center Reservoir which is the principle drinking water supply for the town of Hanover.

(b) This section shall be effective within:

(1) The Camp Brook watershed above the dam which is located at approximate latitude 43°43'05", longitude 72°14'59", in the town of Hanover and

(2) Hanover Center watershed above the dam which is located at approximate latitude 43°44'52", longitude 72°12'03", in the town of Hanover.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Hanover Water Company and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Camp Brook and upper and lower reservoir public water supply and Hanover Center water supply both in the town of Hanover for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Hanover in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said ponds and reservoirs.

(g) The Hanover water company shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Camp Brook and the

upper and lower reservoir and the Hanover Center water supply or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue or maintain any building or structure of any kind in which animals or fowls are kept, within 75 feet of Camp Brook, the upper & lower Hanover reservoir and the Hanover Center reservoir in the town of Hanover or within 75 feet of any inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets;
- (2) A person shall not be permitted to run any sewage, wastes or waters that has been used for washing or cleansing either materials, persons, or food, into said reservoir and brooks or any inlet or tributary thereto;
- (3) A person shall not throw, or deposit any dead animal or fish or parts thereof, or food or any article perishable or decayable or any excreta, either human or animal, into said reservoirs and brooks, or leave or permit any such wastes to remain on the surface of ground within 75 feet of any inlet or tributary thereto;
- (4) A person shall not throw any sawdust or allow any sawdust to fall, into said reservoirs and brooks or into any inlet or tributary thereto;
- (5) A person shall not boat, bathe, swim, fish or carry on any activity of a recreational, occupational, or other nature, in the waters or on the ice of Camp Brook, the upper and lower Hanover reservoirs and the Hanover Center reservoir, or tributaries thereto; and
- (6) A person shall not throw, deposit, or allow to remain upon the ice of the waters of said reservoirs and brooks or upon that of any inlet or tributary thereto upstream of the water works intake, any matter, waste, or materials such as are described in (2), (3), and (4) above.

Env-Ws 386.34 Protection of the Purity of Loon Lake and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Loon Lake which is the principle drinking water supply for the town of Hillsborough.

(b) This section shall be effective within the Loon Lake watershed above the dam which is located at approximate latitude 43°08'32", longitude 71°57'24", in the town of Hillsborough.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Hillsborough and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Loon

Lake public water supply in the towns of Hillsborough for the purpose of investigating watershed sanitation and inspecting sewage and drainage systems and other sources of potential contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Hillsborough in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The town of Hillsborough shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Loon Lake or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue, or maintain any privy, pig-pen, stable, or other building or structure in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of Loon Pond, meaning the high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said lake, bays, coves or inlets;

(2) A person shall not run any sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said pond's high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;

(3) A person shall not throw or deposit any dead animal, fish, or parts thereof, or food, or any article perishable or decayable, dung either human or animal, kitchen waste, swill, or garbage into said pond, or leave or permit any such wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary;

(4) A person shall not bathe in Loon Lake within 1/4 mile of the point where water is taken for public supply, or elsewhere in said pond, provided notice to that effect is issued by the board of water commissioners or the board of health;

(5) A person shall not deposit any sewage on the surface of the ground, allow any cesspool or privy vault to overflow, and shall not permit to exist any of the things, materials or conditions mentioned in the foregoing rule, nor anything else that might endanger the purity of said water supply, whatever may be their distance from said lake, in such locality or manner as in the opinion of the board of health or of the board of water commissioners, would be liable to contaminate the water of the said pond, in accordance with Env-Ws 386.03;

(6) The board of water commissioners may make reasonable rules in regard to the use of boats, and of racing or speeding horses upon the ice of said pond, as they may deem expedient; and

(7) A person shall not use a seaplane on Loon Lake.

Env-Ws 386.35 Protection of the Purity of Bear Pond and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Bear Pond which is the principle drinking water supply for the Contoocook Village Precinct in the town of Hopkinton.

(b) This section shall be effective within the Bear Pond watershed above the dam which is located at approximate latitude 43°13'52", longitude 71° 48'00", in the town of Warner.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Contoocook Village Precinct and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Bear Pond public water supply in the town of Warner for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the Contoocook Village Precinct, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The Contoocook Village Precinct shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Bear Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain any building or structure of any kind in which animals or fowl are kept, within 75 feet of Bear Pond or within 75 feet of any inlet or tributary thereto except in such cases as the division may allow and under such rules as they may require;

(2) A person shall not permit any wastes or waters that has been used for washing or cleansing either materials, persons, food, to run into said pond, or into any inlet or tributary thereof;

(3) A person shall not throw into or deposit in said pond any dead animal, fish or parts thereof, food, or any article perishable or decayable, or any excreta either human or animal, or leave or permit any such wastes to remain on the surface of the ground within 75 feet thereof or into any inlet or tributary;

(4) A person shall not throw any sawdust, or allow any sawdust to fall, into said waters or into any inlet or tributary thereto;

(5) A person shall not trespass, bathe, boat, fish, or conduct any activity whatever whether of a recreational, occupational or other nature in or on the water of Bear Pond and its tributaries;

(6) A person shall not throw, deposit, or allow to remain upon the ice of the waters of said pond, or upon that of any inlet thereof, or of any stream tributary thereto, any matter, waste, or materials such as are described in (2), (3) and (4) above; and

(7) A person shall not use a seaplane on Bear Pond.

Env-Ws 386.36 Protection of the Purity of Woodward Pond, Roaring Brook, Babbidge Reservoir and Their Watershed.

(a) The purpose of this rule is to protect the purity of water of Woodward Pond, Roaring Brook, Babbidge Reservoir and Stone Dam Reservoir which is the principle drinking water supply for the city of Keene.

(b) This section shall be effective within the Woodward Pond, Roaring Brook, Babbidge Reservoir and watershed above the dam which is located at approximate latitude 42°56'00", longitude 72°13'15", in the towns of:

(1) Harrisville;

(2) Marlborough;

(3) Nelson; and

(4) Roxbury.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the city of Keene and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the public water supply in the towns of Harrisville, Marlborough, Nelson and Roxbury for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the city of Keene, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the city of Keene engaged in the performance of necessary duties for the protection and control of said pond.

(g) The city of Keene shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Woodward Pond, Roaring Brook, Babbidge Reservoir and or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain any buildings or structures of any kind in which humans reside or in which animals or fowl are kept, within 75 feet, of the high water mark of Woodward Pond, Roaring Brook, Babbidge Reservoir, or within, 75 feet of any stream tributary thereto;

(2) A person shall not permit any wastes or water that has been used for either washing or cleansing of materials, persons, or food to run into said pond or into any inlet or tributary thereto;

(3) A person shall not throw or deposit any dead animal, fish or parts thereof, food or any article perishable or decayable, or any excreta either human or animal, into said waters, or leave or permit any such wastes to remain on the surface of the ground where there is any likelihood of wash or contamination there from reaching said ponds, brooks or reservoirs or any inlet or tributary thereto;

(4) A person shall not throw any sawdust, or allow any sawdust to fall, into said waters or into any inlet or tributary thereto;

(5) A person shall not boat, bathe, swim, trap, fish, hunt, camp, park trailers or carry on any activity of a recreational or other nature, including but not limited to lumber operations in or near the waters of Woodward Pond, Roaring Brook, Babbidge Reservoir and, above the reservoir dams and the streams tributary thereto; and

(6) A person shall not throw, deposit or allow to remain upon the ice of the waters of said waters pond, or upon that of any inlet thereof, or of any stream tributary thereto, any matter, waste, or materials such as are described in (2), (3) and (4) above.

Env-Ws 386.37 Protection of the Purity of Lake Winnepesaukee and Lake Paugus.

(a) The purpose of this rule is to protect the purity of water of Lake Winnepesaukee and Paugus Bay which is the principle drinking water supply for the city of Laconia.

(b) This section shall be effective within Paugus Bay and Lake Winnepesaukee watershed as describe below in (h)(2) below.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the city of Laconia and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Paugus Bay

public water supply in the city of Laconia for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend nor alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the city of Laconia, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said bay.

(g) The city of Laconia shall post a summary of the prohibitions contained in (h) below at all locations where persons might reasonably be expected to access Paugus Bay or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not discharge any sewage, industrial waste or other wastes, as defined in RSA 149, into the waters, upon the ice, or upon the shores of Lake Winnepesaukee and Lake Paugus except by written permission of the state of New Hampshire, DES water division and then only in accordance with such terms and conditions as may be prescribed by said department;

(2) A person shall not discharge any sewage, treated or untreated, as defined in RSA 149-A, into the waters of Lake Paugus within the area starting at the most northerly point of land along the easterly shore of Paugus Bay, owned by Irwin Marine and known as Irwin Marine Boatyard, approximately where it abuts the southerly end of the Laconia water works property thence running in a westerly direction toward a bound on the westerly side of Paugus Bay at a point on the westerly side of Paugus Bay known as Cass' Point, owned by Irwin Marine more specifically, where the 4 x 8 sign, installed by the Laconia water works, reads: "RESTRICTED AREA - WATER SUPPLY", thence running in an easterly direction in an imaginary line across Paugus Bay to a point of land at Irwin's Boat Storage Facility, formerly known as Tekwood, at a point where Irwin's property abuts the Stanley Brox property, then running in a southerly direction along the shore of Paugus Bay to the point of beginning; and

(3) A person shall not wash boats, bathe, swim, water ski, or have any body contact within the area described in rule (i)2 above, nor shall any person be allowed to construct any docking facilities for boats or buildings along with the shore in the area described in rule (i)(2) above, except with a specific permit of the Laconia water works and appropriate state agencies, nor shall any person fish from a bob house located upon the ice of Lake Paugus within said area. The restricted area shall be used for navigational purposes only.

Env-Ws 386.38 Protection of the Purity of Garland Brook and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Garland Brook which is the principle drinking water supply for the town of Lancaster.

(b) This section shall be effective within the Garland Brook watershed above the dam which is located at approximate latitude 44°28'33 ", longitude 71°27'30 ", in the towns of:

- (1) Jefferson;
- (2) Kilkenney; and
- (3) Lancaster.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person. The town may also adopt penalty provisions for violation within its boundaries.

(d) Under the provisions of RSA 485:24, the town of Lancaster and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Garland Brook public water supply in the towns of Jefferson, Kilkenney, and Lancaster for the purpose of investigating or inspecting watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Lancaster, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said stream.

(g) The town of Lancaster shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Garland Brook or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue or maintain any privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of the high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets, except in such cases as the local board of health may permit;
- (2) A person shall not run any sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said pond meaning high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;
- (3) A person shall not throw or deposit any dead animal, fish, parts thereof, food, or any article perishable or decayable, or any excreta, either human or animal, kitchen waste, swill, or garbage into said pond, or leave or permit any such wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, inlet, stream or tributary;

(4) A person shall not deposit any sawdust, shavings, apple pomace, or waste from mills or factories, or allow any such wastes to fall into said pond or upon their banks so near as to be reachable by the high water level, or into any stream tributary thereto;

(5) A person shall not bathe in said pond;

(6) A person shall not fish on said pond;

(7) A person shall not permit any of the structures or conditions described in (1), (2), (3) and (4) above beyond the minimum limit of 75 feet, if the purity of the water thereby shall be deemed by the water division in accordance with Env-Ws 386.03. to be endangered;

(8) A person shall not throw, deposit or allow to remain upon the ice of the waters of said pond, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter, waste, or materials such as are described in (2), (3), and (4) above; and

(9) A person shall not use any seaplanes on the Garland Brook watershed.

Env-Ws 386.45 Protection of the Purity of the Water of the North Branch of the Gale River.

(a) The purpose of this section is to protect the purity of water of the North Branch of the Gale River, the principle drinking water supply for the town of Littleton.

(b) This section shall apply within the North Branch of the Gale River watershed above the North Branch dam which is located at approximate latitude 44°14'17", longitude 71°37'13", in the Town of Bethlehem.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Land within the North Branch of the Gale River watershed which is within the National Forest system shall be subject to the terms of the "Memorandum of Understanding" between the US Department of Agriculture, Forest Service and the Littleton Water and Light Department.

(e) The rules for the North Branch of the Gale River watershed shall read as follows:

(1) A person placing, leaving or causing to be placed or left, in or within 200 feet of the North Branch of the Gale River or adjacent wetlands any substance or fluid that may cause the water thereof to become impure or unfit for domestic supply, shall be guilty of a misdemeanor or guilty of a felony if any other person;

(2) A person shall not deposit any human or animal waste on the water, ice or land adjacent to the North Branch of the Gale River or adjacent wetlands. Any such waste shall be removed immediately by the responsible person or party;

(3) A person shall not swim, wade or engage in similar water contact activities as defined in RSA 485:22 above the intake of the North Branch of the Gale River on land owned by the town of Littleton;

(4) A person shall not leave any garbage, refuse or trash of any kind brought from home, camp or place of business on town owned property;

(5) A person shall not break bottles or deposit any refuse or wastes of any description into the North Branch of the Gale River or adjacent wetlands;

(6) A person shall only kindle or maintain charcoal fires or portable propane grills within 75 feet of the Gale River or adjacent wetlands;

(7) A person shall not sell food, drink, or merchandise of any kind on town property unless permission shall be granted from the appropriate board of commissioners;

(8) A person shall keep dogs and other pets on a leash while adjacent to the shoreline. Pets shall not be left unattended and shall not be permitted in the water;

(9) A person shall not ride horseback along the shoreline;

(10) A person shall not enter upon or remain on Littleton town property adjacent to the North Branch of the Gale River between the hours of 9:00 pm and 6:00 am unless authorized;

(11) A person shall not possess or consume any alcoholic beverages or other controlled substances on Littleton town property;

- (12) A person shall not remove or damage any structure, sign, plant, tree or natural feature on town land;
- (13) All special or group activities on town property shall be authorized by the appropriate board of commissioners;
- (14) A person shall use motor vehicles in only designate parking areas; abide by traffic control and use reasonable speed as indicated by signs;
- (15) A person shall not obstruct or damage emergency access gates. Violators shall be subject to towing at the owner's expense, as defined in RSA 265:69;
- (16) A person without right, who enters restricted areas that have been posted " no trespassing", shall be guilty of a misdemeanor if a natural person or guilty of a felony, if any other person as defined in RSA 485:26;
- (17) A person shall, in matters of safety and orderliness, obey all requests made by authorized officials of the appropriate town;
- (18) A person shall not use highway motor vehicles on the waters or ice of the North Branch of the Gale River or adjacent wetlands;
- (19) A person found violating any of the above rules shall be ejected from town property and shall be guilty of a misdemeanor if a natural person or guilty of a felony, if any other person, as defined in RSA 485.26; and
- (20) A complete set of the North Branch of the Gale River or adjacent wetland rules shall be available and on file at the Littleton Water and Light Department office in Littleton or the Town of Bethlehem board of selectmen.

Env-Ws 386.46 Protection of the Purity of the Water of the South Branch of the Gale River.

- (a) The purpose of this section is to protect the purity of water of the South Branch of the Gale River, which is an auxiliary drinking water supply for the town of Littleton.
- (b) This section shall be effective within the South Branch of the Gale River watershed above the South Branch dam which is located at approximate latitude 44°14'35", longitude 71°37'40", in the town of Bethlehem.
- (c) Any person violating these rules shall, in accordance with RSA 485:26 be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.
- (d) Land within the South Branch of the Gale River watershed which is within the National Forest system shall be subject to the terms of the "Memorandum of Understanding" between the US Department of Agriculture, Forest Service and the Littleton Water and Light Department.

Source. #6521, eff 6-4-97 (See Revision Note at chapter heading for Env-Ws 300)

Env-Ws 386.47 Protection of The Purity of The Water of Lake Massabesic and its Tributaries.

(a) The purpose of this rule is to protect the purity of water of Lake Massabesic, which is the principal drinking water supply for the city of Manchester and portions of the towns of:

- (1) Auburn;
- (2) Bedford;
- (3) Derry;
- (4) Goffstown;
- (5) Hooksett; and
- (6) Londonderry.

(b) This section shall be effective within the Lake Massabesic watershed which lies above the Massabesic dam, located at approximate latitude 43°57'39", longitude 71°23'48", in the following municipalities:

- (1) Auburn;
- (2) Candia;
- (3) Chester;
- (4) Hooksett; and
- (5) Manchester.

(c) The following terms as used in this section are defined as follows:

- (1) "Board of water commissioners" means the governing body of the Manchester water works;
- (2) "Direct tributary" means that portion of any stream shown on the most current version of the U.S. Geological Survey 7 1/2' topographic maps that does not flow into or through a pond, lake, reservoir, or impoundment of 5 acres or more before reaching Lake Massabesic;
- (3) "Motor vehicle" means "motor vehicle" as defined in RSA 259:60;
- (4) "OHRV" means "off highway recreational vehicle" as defined in RSA 215-A:1, VI; and
- (5) "Person" means an individual, corporation, company, association, society, firm, partnership or joint stock company.

(d) Any person violating this section shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person, or guilty of a felony if any other person. The city or town may also adopt penalty provisions for violation within its boundaries.

(e) Under the provisions of RSA 485:24, the department shall designate the board of water commissioners or its representatives as agents of the department for the enforcement of this section in cooperation with the department.

(f) Under the provisions of RSA 485:24, II the board of water commissioners and its representatives may enter at reasonable times any land or property within the Lake Massabesic watershed for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(g) Where any provision of this section is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule, or local ordinance or rule.

(h) Waivers and exemptions to this section shall apply as follows:

(1) Any person may request from the department a waiver from the provisions of this section in accordance with Env-Ws 386.04; and

(2) Employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of Lake Massabesic, its tributaries, and its watershed shall be exempt from the provisions of this section.

(i) The Manchester water works shall post a summary of the prohibitions and restrictions contained in paragraphs (d) through (f), (h), (l), (m), (o) through (q), (s), and (t) of this section and other prohibitions and restrictions enacted by local ordinance or by the board of water commissioners in locations where persons might reasonably be expected to access Manchester water works' property, Lake Massabesic, ponds or its tributaries.

(j) Within 200 feet of Lake Massabesic or any pond, reservoir, or stream tributary thereto, a person shall not build any privy, pigpen, stable, or other buildings or structure in which horses, cattle, swine or other animals or fowl are kept.

(k) Within 200 feet of Lake Massabesic or Tower Hill Pond, the following provisions shall apply:

(1) A person shall not build any privy, toilet, sink drain, or subsurface septic disposal system or allow any discharges therefrom, except as provided in subparagraph (2);

(2) Existing properly functioning septic systems may remain in place; and

(3) If failure of an existing septic system occurs, the owner shall repair or replace said system in accordance with Env-Ws 1003.10.

(l) With the exception of operating an outboard motor, on or within 200 feet of the waters or ice of Lake Massabesic or any pond, reservoir, or stream tributary thereto, a person shall not:

(1) Deposit any dead animal or parts thereof, food or any article perishable or decayable, kitchen waste, swill, garbage, or human waste;

- (2) Deposit any hazardous waste, as defined in Env-Wm 110.01(b)(56), such as solid, semi-solid, liquid or contained gaseous waste, or any combination of wastes which possess a threat to human health or the environment;
 - (3) Deposit solid waste such as refuse, appliances, auto parts, tires, tree stumps, or similar waste; or
 - (4) Deposit manure, fertilizer, or chemical waste such as gasoline, paint, or similar waste.
- (m) On or within the water or ice of Lake Massabesic or any pond, reservoir, or stream tributary thereto the following prohibitions or restrictions shall apply:
- (1) A person shall not bathe, wade, swim, water ski or perform any similar water contact activity;
 - (2) A person shall not use a sunfish, sailfish, sail board, ski craft as defined in RSA 270:73, V, or other craft which in the judgment of the board of water commissioners or its representatives makes extensive bodily contact with the water unavoidable;
 - (3) A person shall not discharge from or off a vessel, cruiser, boat, houseboat, wharf or from a structure of any kind or any tank or receptacle thereon or therein contained, any excrement, urine, or waste;
 - (4) All boats or structures of any kind that are equipped with toilet, lavatory, or other sewage or waste producing fixtures shall be provided with water-tight tanks or receptacles for the reception and temporary storage of such wastes;
 - (5) The aforementioned tanks or receptacles shall be maintained as required in RSA 487:2 and the contents thereof shall be disposed of in a municipal sewage system or to any adequate sewage disposal system on shore;
 - (6) A person shall not tie, beach, or ground an occupied vessel, cruiser, boat, houseboat, or structure of any kind to the water or ice, or tie to the shore for an overnight period or any part of an overnight period, except as permitted by Manchester water works pursuant to paragraph (t)(4) or (t)(5) of this section;
 - (7) An unoccupied vessel, cruiser, boat, houseboat, or structure of any kind may be anchored or grounded to said waters or ice only by permission of the board of water commissioners pursuant to paragraph (t)(4) or (t)(5) of this section or land owner, lessee, or person otherwise in control of such location;
 - (8) A person shall not cut or take ice therefrom except by permission and under the direction of the board of water commissioners as provided for in RSA 485:54;
 - (9) Any person operating an OHRV on any land of the Manchester water works shall do so in strict accordance with the laws of the state of New Hampshire; and
 - (10) A person shall not use any aircraft.
- (n) In the Lake Massabesic watershed, the following prohibitions or restrictions shall apply:

- (1) A person shall conduct all pesticide applications, as defined in RSA 430, in strict accordance with the rules of the New Hampshire pesticide control board;
 - (2) A person shall conduct all forestry or timber harvesting activities in strict accordance with state of New Hampshire laws including RSA 227-J and in consultation with the Manchester water works forester, and
 - (3) A person shall handle any agricultural compost, chemical fertilizer, or manure as defined in RSA 431:33 in accordance with best management practices published by the New Hampshire department of agriculture, markets, and food in accordance with RSA 431:34.
- (o) In or on Manchester water works' property or the waters or ice of Lake Massabesic or any pond, reservoir, or stream tributary thereto, the following prohibitions or restrictions shall apply:
- (1) A person shall not operate an all terrain vehicle or other OHRV other than a snow traveling vehicle as defined in RSA 215-A:1, and then only in non-restricted areas at the operator's own risk; and
 - (2) A person shall not break bottles or throw trash of any description.
- (p) The following areas shall be closed to all human activity:
- (1) The Back or West Pond of Lake Massabesic west of the Deerneck bridge (NH Route 28 Bypass), as marked by floats and signs; and
 - (2) The outlet of Lake Massabesic from the outlet dam downstream to and including Mill Pond at Island Pond Road and the canal carrying the water to the pumping station.
- (q) On Manchester water works' property the following prohibitions or restrictions shall apply:
- (1) A person shall not enter upon or remain between the hours of 8:00 p.m. and 8:00 a.m.;
 - (2) A person shall not place in or adjacent to Manchester water works' waste containers any garbage, refuse, or trash of any kind brought from home, camp, or place of business;
 - (3) A person shall only use self-contained charcoal type fires, as opposed to open flame fires and then only in the designated public picnic area adjacent to Route 28 Bypass;
 - (4) Any vehicle obstructing an emergency access gate shall be subject to towing at owner's expense;
 - (5) A person shall not, without permission of the board of water commissioners, enter restricted areas that have been posted "NO TRESPASSING"; and
 - (6) A person shall obey in matters governed by this section, all lawful requests made by representatives of the board of water commissioners.
- (r) Within 300 feet of any direct tributary, a person shall not allow the following as they relate to new or modified construction other than repair or replacement in kind:

- (1) Store liquid petroleum products, except for normal residential use and heating fuels for on-premise use;
 - (2) Store road salt or de-icing chemicals, except for incidental residential use;
 - (3) Service, wash, or repair boats or motor vehicles, except for emergency repairs;
 - (4) Operate a junk yard as defined in RSA 236:112, I or a machinery junk yard as defined in RSA 236:112, III;
 - (5) Render impervious more than 10 percent of any lot or 2500 square feet on any one lot, whichever is greater; or
 - (6) Allow or cause to be discharged to the surface or to groundwater any stormwater that has not been treated by permanent methods for protecting water quality described in Env-Ws 415.11(a) through (h).
- (s) In or on property owned by Manchester water works or the water or ice of Lake Massabesic the following prohibitions or restrictions shall apply:
- (1) A person shall not tent or camp or use overnight trailers, campers, or houseboats;
 - (2) The following provisions shall apply to dogs and other pets:
 - a. A person shall control by leash all such pets;
 - b. A person shall not leave such pets unattended;
 - c. A person shall not permit such pets in the water or on the beach; and
 - d. Pet owners shall be required to pick up and properly dispose of their pets' waste.
 - (3) A person shall not remove or damage or deface any structure, sign, plant, tree, or natural feature; and
 - (4) A person shall not feed ducks, geese, seagulls, or other waterfowl.
- (t) In or on the water or ice of Lake Massabesic the following prohibitions or restrictions shall apply:
- (1) A person shall not operate a motor vehicle other than a snow traveling vehicle;
 - (2) A person shall not race power boats or snow traveling vehicles;
 - (3) A person shall not operate any power boat or snow traveling vehicle at a rate of speed in excess of 35 miles per hour;
 - (4) A person shall not place moorings without a mooring permit issued by the Manchester water works;

(5) A person shall not place a dock in Lake Massabesic without a dock permit issued by the Manchester water works; and

(6) The following provisions shall apply to boats:

a. A person shall not allow a boat to remain moored after November 30th of each year; and

b. Manchester water works may remove any boat moored after November 30th of each year at the owner's expense.

Env-Ws 386.49 Protection of the Purity of the Water of Lake Waukegan and Its Watershed.

(a) The purpose of this rule is to protect the purity of the water of Lake Waukegan which is the principle drinking water supply for the town of Meredith.

(b) This rule shall be effective within the Lake Waukegan watershed above the Lake Waukegan dam, which is located at approximate latitude 43 39'17", longitude 71 30'12", in the towns of:

(1) Ashland;

(2) Center Harbor;

(3) Holderness;

(4) Meredith; and

(5) New Hampton.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Meredith and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributary to the Lake Waukegan public water supply in the towns of Ashland, Center Harbor, Holderness, Meredith, and New Hampton for the purpose of investigating or inspecting sewage and drainage systems and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division, in accordance with Env-Ws 386.04 and the town of Meredith. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said lake.

(g) The town of Meredith shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Lake Waukewan or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance. A complete set of these rules shall be available and on file at the Center Harbor, Meredith and New Hampton town clerk's office.

(h) These restrictions shall include:

(1) Grandfathering of existing land uses shall be subject to the following. Existing uses as of June 14, 1993 may be continued by the landowner; such continued use shall be subject to any other rules which may limit the continuance of an existing use. If a change in use occurs or expansion is proposed, the rule requirements shall be met. A change in use shall include, but not be limited to, a change from seasonal to year round use, higher intensity of campsites, units or domestic farm animals. Discontinuance of a grandfathered use for two consecutive years shall result in termination of any/all grandfathered rights. The intent of these rules, to improve and maintain protection of Lake Waukewan, shall be considered at all times;

(2) A person shall not build or maintain any pigpen, stable, or other building or structure in which horses, cattle swine or other animals or fowl are kept within 200 feet of Lake Waukewan or adjacent wetlands;

(3) A person shall not build or maintain any privy, toilet, sink drain or subsurface septic disposal system or discharges therefrom, within 125 feet of Lake Waukewan. Existing properly functioning septic systems within 125 feet of the shoreline may remain in place. If failure occurs, the repair or replacement system shall be in accordance with Env-Ws 1000;

(4) A person shall not deposit any dead animals, or parts thereof, food or any perishable articles that will decay and no kitchen waste, swill, garbage, human or animal waste into or upon said water or ice, or placed in, upon or within 200 feet of the waters or ice of Lake Waukewan or adjacent wetlands;

(5) A person shall prepare and follow an animal waste management plan if any one property within 200 feet of Lake Waukewan or adjacent wetlands has more than 5 adult livestock, 10 immature livestock, or 50 poultry, the owners approved by the Belknap County Conservation District;

(6) A person shall not place any hazardous waste, as defined in RSA 147-A, such as solid, semi-solid, liquid or contained gaseous waste, or any combination of wastes which pose a threat to human health or the environment in or within 200 feet of the water or ice of Lake Waukewan or adjacent wetlands. State of New Hampshire hazardous waste laws shall be strictly enforced;

(7) A person shall not place any solid waste, as defined in Env-Wm 100 through Env-Ws 1000, in, upon, or within 200 feet of the water or ice of Lake Waukegan or any adjacent wetlands;

(8) A person shall not place any chemical waste, such as, but not limited to gasoline, paint, fertilizer or similar waste in, upon, or within 200 feet of the water or ice of Lake Waukegan or adjacent wetlands;

(9) A person shall conduct all pesticide applications, as defined in RSA 430, made on land areas which contribute surface water runoff either directly to Lake Waukegan or indirectly by running into adjacent wetlands, in strict accordance with the rules of the New Hampshire pesticide control board;

(10) A person shall conduct all fertilizer applications, as defined in RSA 431, made on land areas which contribute surface water runoff either directly or ultimately to Lake Waukegan or adjacent wetlands, in strict accordance with Pes 100 through 900;

(11) A person shall perform all forestry or timber harvesting activities conducted within the Lake Waukegan watershed in strict compliance with state of New Hampshire rules Res 5301 and Res 5401 and in consultation with a state or county forester as required in RSA 227-J;

(12) A person shall not wade, swim, waterski or perform any similar water contact activities, within 400 feet of the intake of the Meredith water department;

(13) A person shall not discharge from a vessel, cruiser, boat, houseboat, wharf or a structure of any kind, whether on or in the water or on the ice, or any tank or receptacle thereon or therein contained, any excrement, urine or any waste, nor shall any such waste be left in, on, or within 200 feet of the waters or ice of Lake Waukegan or adjacent wetlands. All boats or structures of any kind used on the water or on the ice that are equipped with toilet, lavatory or other waste fixtures shall be provided with water-tight tanks for the temporary storage of such wastes. The aforementioned tanks shall be maintained as required by RSA 487 and the contents thereof shall be disposed of into a municipal sewerage system or any approved sewage disposal system on shore;

(14) A person shall not moor, anchor or otherwise secure any occupied vessel, cruiser, boat or houseboat of any kind on or to the water or ice, or tied to the shore of Lake Waukegan or adjacent wetlands for an overnight period or any part of an overnight period;

(15) A person, firm or corporation shall not cut and take ice from Lake Waukegan or adjacent wetlands except by permission of, and under the direction of the appropriate board of selectmen as prescribed in RSA 485:54;

(16) A person shall operate off-highway recreational vehicles on the water or ice of Lake Waukegan or adjacent wetlands or upon any land of the Towns within the watershed in strict compliance with the laws of the state of New Hampshire, as defined in RSA 215-A. The use of any land belonging to any of the towns within the watershed or any frozen or non-frozen surface of Lake Waukegan or adjacent wetlands by the owner or operator of any OHRV shall be done at their own risk;

- (17) A person shall not use highway motor vehicles on the waters or ice of Lake Waukegan or adjacent wetland except by written permission by the board of selectmen of the town where each entrance or exit is to be made;
- (18) Nothing in these rules shall be construed to prevent access to Lake Waukegan for fishing purposes, so long as the intent of the rules is observed;
- (19) A person shall place any garbage, refuse or trash of any kind brought from home, camp or place of business in or near public waste containers. Refuse resulting from picnicking on or adjacent to the Lake Waukegan or adjacent wetlands shall be deposited in approved containers;
- (20) A person shall not break bottles or deposit refuse or wastes of any description into Lake Waukegan or adjacent wetland;
- (21) A person shall only kindle charcoal fires or portable propane grills or maintained such within 75 feet of the Lake or adjacent wetlands;
- (22) A person shall not sell food or drink or merchandise of any kind on town property, unless written permission is granted from the appropriate board of selectmen;
- (23) A person shall keep dogs and other pets on a leash while adjacent to the shoreline. Pets shall not be left unattended and shall not be permitted in the water;
- (24) A person shall not ride horse-back along the shoreline;
- (25) An unauthorized person shall not enter upon or remain on Meredith town property adjacent to Lake Waukegan between the hours of 9:00 pm and 6:00 am;
- (26) A person shall not possess or consume any alcoholic beverage or other controlled substances on Meredith town property;
- (27) A person shall not remove or damage any structure, sign, plant, tree, or natural feature on town land;
- (28) A person shall not conduct special or group activities on town property unless the activity shall be authorized by the appropriate board of selectmen;
- (29) A person shall not obstruct or damage an emergency access gates. Violators shall be subject to towing at the owner's expense, as defined in RSA 265:69;
- (30) A person shall not enter restricted areas that have been so posted as "no Trespassing";
- (31) A person shall obey the requests made by authorized officials of the appropriate town in matters of safety and orderliness; and
- (32) A person shall not tent, camp or use of recreational vehicles overnight, or use trailers and campers within 125 feet of Lake Waukegan or adjacent wetland.

Source. #6521, eff 6-4-97 (See Revision Note at chapter heading for Env-Ws 300)

Env-Ws 386.50 Protection of the Purity of Pennichuck Brook and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of the Pennichuck Brook pond system which is the principle drinking water supply for the city of Nashua.

(b) This section shall be effective within the Pennichuck Brook watershed above the dam which is located at approximate latitude 42°47'32", longitude 71°58'35", in the towns of:

- (1) Amherst;
- (2) Hollis;
- (3) Merrimack; and
- (4) Nashua.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Pennichuck Water Company and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Pennichuck public water supply in the towns of Amherst, Hollis, Merrimack and Nashua for the purpose of investigating sanitary conditions and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the water division in accordance with Env-Ws 386.04 and the Pennichuck Water Company. These provisions shall not apply to employees of the water utility engaged in the performance of necessary duties for the protection and control of said stream and ponds.

(g) The Pennichuck water system shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Pennichuck Brook or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue or maintain any privy, pig-pen, stable or other building or structure in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of any of the above-named waters, meaning the high water mark, or within 75 feet of any bay, cove, or inlet thereof, or within 75 feet of any stream tributary to said ponds, brook, bays, coves or inlets;
- (2) A person shall not allow any sink-water, urine, or water that has been used for washing or cleansing materials, persons or food, to run into said ponds or brooks, or into any bay, cove or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the

ground or onto the surface of any ground within 75 feet of said pond's or brook's high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;

(3) A person shall not throw or deposit any dead animal, or fish or parts thereof or food, or any article perishable or decayable, or any dung, either human or animal kitchen waste, swill, or garbage, into said ponds or brook, or leave or permit any such wastes to remain within 75 feet of meaning the high water mark, or into any bay, cove, or inlet of said ponds or brook, or into any stream tributary thereto, or within 75 feet of such bay, cove or inlet stream or tributary;

(4) A person shall not construct any of the structures or carry out any of the conditions described in (1), (2), or (3) above even though beyond the minimum of 75 feet, if the purity of the water thereby is endangered as determined by the water division in accordance with Env-Ws 386.03;

(5) A person shall not throw any sawdust or other waste from the cutting of timber, or allow any such waste to fall into said ponds or brook, or into any stream tributary thereto;

(6) A person shall not throw, deposit or allow to remain upon the ice of the waters of said ponds or brook or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter, waste or materials such as are described in (2), (3), and (5) above; and

(7) A person shall not bathe or swim in said ponds or brook.

Env-Ws 386.52 Protection of the Purity of Mountain Pond and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Mountain Pond which is a principle drinking water supply for the New Hampton Village Precinct.

(b) This section shall be effective within the Mountain Pond watershed above the dam which is located at approximate latitude 43°35'50", longitude 71°38'20", in the towns of:

(1) Meredith;

(2) New Hampton; and

(3) Sanbornton.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the New Hampton Village Precinct and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Mountain Pond public water supply in the towns of Meredith, New Hampton and Sanbornton for the purpose of investigating or inspecting sewage and drainage systems and other sources of potential contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the New Hampton Precinct in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The New Hampton Village Precinct shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Mountain Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain any building or structure in which animals or fowl are kept, within 75 feet of Mountain Pond, New Hampton Reservoir and the connecting brook between said pond and reservoir or within 75 feet of any inlet tributary thereto;

(2) A person shall not allow any wastes or waters that have been used for washing or cleaning either materials, persons or food to run into said waters or any inlet or tributary thereof;

(3) A person shall not throw or deposit any dead animal, fish, food, or parts thereof or any article perishable or decayable and no excreta, either human or animal, into said waters, or leave or permit any such waste to remain on the surface of the ground within 75 feet thereof or into any inlet or tributary thereto or on the ground surface within 75 feet of any inlet or tributary;

(4) A person shall not throw any sawdust or allow any sawdust to fall into said waters or into any inlet or tributary thereto;

(5) A person shall not trespass, boat, bathe, swim, fish or carry on any activity whatever whether of recreational, occupational or other nature, in the waters or on the ice of Mountain Pond, New Hampton reservoir and the connecting brook between said pond and reservoir; and

(6) A person shall not throw, deposit or allow to remain upon the ice of said bodies of water or upon the ice of any inlet or stream tributary thereto, any matter, waste or materials such as are described in (2), (3), and (4) above.

Env-Ws 386.53 Protection of the Purity of Follett Brook and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Follett Brook which is a principle drinking water supply for the town of Newmarket.

(b) This section shall be effective within the Follets Brook watershed above the dam which is located at approximate latitude 43°04'56", longitude 70°56'55", in the towns of:

- (1) Durham;
- (2) Lee; and
- (3) Newmarket.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Newmarket and its agents may enter at reasonable times any land or property within the drainage areas tributary to the Follett Brook public water supply in the towns of Durham, Lee and Newmarket for the purpose of investigating watershed sanitation and other sources of possible water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Newmarket in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The town of Newmarket shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Follett brook or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue, or maintain any privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of the high water mark or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets;
- (2) A person shall not allow any sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, to run into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said pond's, high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;
- (3) A person shall not throw or deposit any dead animal, fish, or parts thereof, food, any article perishable or decayable, any dung, either human or animal, kitchen waste, swill, or

garbage into said pond, or leave or permit any such waste to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary;

(4) A person shall not deposit any sawdust, shavings, apple pomace, or waste from mills or factories, or allow any such wastes to fall into said pond, or upon their banks so near as to be reachable by the high water level, or into any stream tributary thereto;

(5) A person shall not bathe in said pond;

(6) A person shall not fish on said pond;

(7) A person shall not construct any of the structures or carry out any of the conditions described in (1), (2), (3) and (4) above, beyond the minimum limit of 75 feet, if the purity of the water thereby shall be deemed endangered by the water division in accordance with Env-Ws 386.03;

(8) A person shall not throw, deposit or allow to remain upon the ice of the waters of said pond, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter, waste, or materials such as are described in (2), (3), and (4) above; and

(9) A person shall not use a seaplane on said pond.

Env-Ws 386.56 Protection of the Purity of the Water of Gilman Pond and Its - Watershed in the town of Unity.

(a) The purpose of this section is to protect the purity of water of Gilman Pond, which is the principle drinking water supply for the town of Newport.

(b) This section shall be effective within the Gilman Pond watershed above the dam which is located at approximate latitude 43°17'40", longitude 72°12'05", in the town of Unity.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Newport and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the

Newport public water supply in the towns of Unity and Newport for the purpose of investigating or inspecting sewage and drainage systems and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Newport in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The town of Newport shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Gilman Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build or maintain any privy, pig pen, stable or other building or structure in which horses, cattle, swine or other animals or fowl are kept, within 200 feet of the high water mark of Gilman Pond or within 200 feet of any inlet thereto;

(2) A person shall not allow any sink water, urine or water that has been used for washing or cleansing materials, persons or food, to run into Gilman pond, or into any inlet thereof, or into any excavation or cesspool in the ground or on the surface of any ground within 200 feet of the high water mark of Gilman Pond or of any inlet;

(3) A person shall not throw or deposit any dead animal, fish or parts thereof, or food or any article perishable or decayable, or any dung, either human or animal, kitchen waste, swill or garbage into Gilman Pond, or leave or permit any such wastes to remain within 200 feet of the high water mark thereof, or into any inlet of Gilman pond or within 200 feet of such inlet;

(4) A person shall not throw, deposit or allow to remain upon the ice of the waters of Gilman Pond, or upon that of any inlet thereof, any matter, waste or materials such as described in 2 or 3 above;

(5) A person shall not drive, ride or race any cattle, horses, or other animal used either for teaming, riding or speeding, upon the ice of Gilman Pond;

(6) A person shall not build or maintain any privy, toilet, sink drain or subsurface septic disposal system or discharges therefrom, within 200 feet of Gilman Pond. Existing properly functioning septic systems within 200 feet of the shoreline may, at the owners' discretion, remain in place. If failure occurs, the repair or replacement shall be carried out in accordance with Env-Ws 1000 with adherence to the 200 foot setback;

(7) A person shall not place or leave any hazardous waste as defined in RSA 147-A or Env-Wm 100 through Env-Wm 1000, or any combination of wastes which pose a threat to human health or the environment, in, on or near the waters or ice of Gilman Pond or any stream tributary thereto;

- (8) A person shall not place or leave any solid waste, as defined in RSA 149-M or Env-Wm 100-300 and Env-Wm 2100-2800, including but not limited to refuse, appliances, auto parts, tires, and tree stumps, in, on or near the water or ice of Gilman Pond or any stream tributary thereto;
- (9) A person shall not place any chemical waste such as gasoline, paint, fertilizers or similar waste, into, on or upon the water or ice, or within 200 feet of Gilman Pond or any stream tributary thereto;
- (10) A person shall conduct all pesticide applications, as defined in RSA 430 made on that land area which contributes surface water runoff either directly into Gilman Pond or indirectly by running into any stream tributary thereof, in strict accordance with the rules of the New Hampshire pesticide control board;
- (11) A person shall perform all forestry or timber harvesting activities conducted in the Gilman Pond watershed, in strict accordance with state of New Hampshire laws including RSA 227-J, and in consultation with the town of Newport;
- (12) A person shall not bathe, wade, swim, water-ski, or perform any similar water contact activity in Gilman Pond or any stream tributary thereto;
- (13) A person shall not discharge off or from a vessel, cruiser, boat, houseboat, wharf or from a structure of any kind whether on the water or on the ice, or from any tank or receptacle thereon or therein contained, any excrement or urine, nor shall a person leave any such waste in, on or near the waters or ice of Gilman Pond or stream tributary thereto;
- (14) A person shall not tie, beach or ground any occupied vessel, cruiser, boat, houseboat or structure of any kind to the water, ice, or shore of Gilman Pond or any stream tributary thereto for an overnight period;
- (15) A person, firm or corporation shall not cut or take ice from Gilman Pond or any stream tributary thereto;
- (16) No person shall not use or operate any off-highway recreational vehicle (OHRV), as defined in RSA 215-A, on the water or ice of Gilman Pond or any stream thereto, or any land around Gilman Pond without the express written permission of the board of selectmen of the town where entrance or exit is to be made;
- (17) A person shall not use any aircraft on the waters or ice of Gilman Pond or any stream tributary thereto; and
- (18) A person shall not boat or fish in Gilman Pond or any stream tributary thereto.

Env-Ws 386.57 Protection of the Purity of Berry Pond and its Watershed.

- (a) The purpose of this rule is to protect the purity of water of Berry Pond which is the principle drinking water supply for the town of Pittsfield.

(b) This section shall be effective within the Berry River watershed above the dam which is located at approximate latitude 43°17'00", longitude 70° 57'00", in the town of Pittsfield.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Pittsfield Aqueduct Company and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Berry River and Pond public water supply, in the town of Pittsfield, for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the Pittsfield Aqueduct Company, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the company engaged in the performance of necessary duties for the protection and control of said pond.

(g) The Pittsfield Aqueduct Company shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Berry River and Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue, or maintain any privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of Berry Pond's, meaning the high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets;

(2) A person shall not allow any sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, to run into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said ponds, meaning the high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;

(3) A person shall not throw or deposit any dead animal, fish, or parts thereof, food, any article perishable or decayable, or any dung either human or animal, kitchen waste, swill, or garbage into said pond, or leave or permit any such wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary;

(4) A person shall not build any of the structures or carry out any of the conditions described in (1), (2), and (3) above if the purity of the water is thereby deemed endangered by the water division in accordance with Env-Ws 386.03;

(5) A person shall not bathe in said pond;

(6) A person shall not throw any sawdust or allow any sawdust to fall into said pond, or into any stream tributary thereto;

(7) A person shall not throw, deposit, or allow to remain upon the ice of the waters of said pond, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter, waste, or materials such as are described in (2) and (3) above; and

(8) A person shall not use a seaplane on said pond.

Env-Ws 386.58 Protection of the Purity of The Bellamy Reservoir and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of the Bellamy Reservoir which is the principle drinking water supply for the city of Portsmouth.

(b) This section shall be effective within the Bellamy river watershed above the dam which is located at approximate latitude 43°17'21", longitude 70° 57'00", in the towns of:

(1) Barrington;

(2) Dover; and

(3) Madbury.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the city of Portsmouth and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Bellamy river public water supply in the towns of Barrington, Dover and Madbury for the purpose of investigating watershed sanitation and other sources or potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the city of Portsmouth, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The city of Portsmouth shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Bellamy reservoir or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance. These rules shall not apply to staff or hired employees.

(h) These restrictions shall include:

- (1) A person shall not build, continue, or maintain any building or structure of any kind in which animals or fowls are kept, within 75 feet of Bellamy Reservoir or within 75 feet of any inlet or tributary thereto;
- (2) A person shall not discharge any sewage waste, as defined in RSA 485:1, treated or otherwise, into said reservoir or any inlet or tributary thereof;
- (3) A person shall not throw or deposit any dead animal, or fish, or parts thereof, any article perishable or decayable, or any excreta, either human or animal, into said reservoir, or leave or permit any such waste to remain on the surface of the ground within 75 feet thereof or into any inlet or tributary thereto, or on the ground surface within 75 feet of any inlet or tributary;
- (4) A person shall not bathe or swim in said reservoir or any inlet or tributary thereto;
- (5) A person shall not use any boats propelled by means of inboard or outboard motors on the waters of said reservoir;
- (6) A person may fish by means of a boat in the area upstream from the large island located in said reservoir;
- (7) All activity whether of recreational, occupational or other nature, in or on the waters of said reservoir and its tributaries, within a distance of 4,000 feet of the water supply intake structure is hereby prohibited;
- (8) A person shall not throw, deposit or allow to remain upon the ice of the waters of said reservoir or upon the ice of any inlet or stream tributary thereto, any sewage or waste as defined in subparagraph (2) above; and
- (9) A person shall not use any seaplanes on any portion of said reservoir.

Env-Ws 386.59 Protection of the Purity of Round Pond and Rochester Reservoir and their Watersheds.

(a) The purpose of this rule is to protect the purity of water of Round Pond and the Rochester Reservoir which are principle drinking water supplies for the city of Rochester.

(b) This section shall be effective within Round Pond and the Rochester Reservoir watershed above the dam which is located at approximate latitude 43°17'20", longitude 71°02'35", in the:

- (1) City of Rochester; and
- (2) Town of Barrington.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the city of Rochester and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the public water supply in the towns for the purpose of investigating watershed sanitation and other sources or water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division in accordance with Env-Ws 386.04 and the city of Rochester. These provisions shall not apply to employees of the utility engaged in the performance of necessary duties for the protection and control of said pond.

(g) The city of Rochester shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access the Berry River and Round Pond and the Rochester Reservoir or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue or maintain any building or structure of any kind in which animals or fowls are kept, within 75 feet of Round Pond and Rochester Reservoir, upstream of the water works intake structure or within 75 feet of any inlet or tributary thereto;

(2) A person shall not allow any wastes or waters that have been used for washing or cleansing either materials, person or food, to run into said ponds and river or any inlet or tributary thereof;

(3) A person shall not throw or deposit any dead animal, fish, or parts thereof, or food or any article perishable or decayable, or any excreta, either human or animal, into said ponds and river, nor shall a person allow any such wastes to remain on the surface of the ground within 75 feet thereof or into any inlet or tributary thereto or on the ground surface within 75 feet of any inlet, stream or tributary;

(4) A person shall not throw any sawdust, or allow any sawdust to fall, into said pond and reservoir or into any inlet or tributary thereto;

(5) A person shall not boat, bathe, swim, fish or carry on any activity of a recreational nature in or on the waters of Round Pond, Rochester Reservoir or any inlet or tributary thereto;

(6) A person shall not throw, deposit or allow to remain upon the ice of the waters of said ponds and river, or upon that of any inlet or tributary thereto, any matter, waste, or materials such as are described in (2), (3) and (4) above;

(7) A person shall not use any seaplane on said ponds.

Env-Ws 386.60 Protection of the Berry's River and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Berry's River and its watershed which are a principle drinking water supply for the City of Rochester.

(b) This section shall be effective within the Berry's River watershed above the diversion dam which is located at approximate latitude 43°17'17", longitude 71°03'47", in the towns of:

- (1) Barrington;
- (2) Farmington;
- (3) Strafford; and the
- (4) City of Rochester.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the city of Rochester and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the public water supply in the towns for the purpose of investigating watershed sanitation and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend nor alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the city of Rochester in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the utility engaged in the performance of necessary duties for the protection and control of said pond.

(g) The city of Rochester shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Berry's River or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue, or maintain any building or structure of any kind in which animals or fowls are kept, within 75 feet of Berry's River upstream of the water works intake structure or within 75 feet of any inlet or tributary thereto;
- (2) A person shall not run any wastes or waters that have been used for washing or cleansing either materials, person or food, into said ponds and river or any inlet or tributary thereof;
- (3) A person shall not throw or deposit any dead animal, or fish, or parts thereof, or food or any article perishable or decayable, or any excreta, either human or animal, into said ponds and river, or leave or permit any such wastes to remain on the surface of the ground within 75 feet thereof or into any inlet or tributary thereto or on the ground surface within 75 feet of any inlet, stream or tributary;

(4) A person shall not throw any sawdust, or allow any sawdust to fall into said ponds and river or into any inlet or tributary thereto;

(5) A person shall not boat, bathe, swim, fish or carry on any other activity of a recreational nature in or on the waters of Berry's River and its tributaries above the intake structure for the Rochester water works;

(6) A person shall not throw or deposit or allow to remain upon the ice of the waters of said ponds and river, or upon that of any inlet or tributary thereto, any matter, waste, or materials such as are described in (2), (3) and (4) above; and

(7) A person shall not use a seaplane on said pond or river.

Source. #6521, eff 6-4-97 (See Revision Note at chapter heading for Env-Ws 300)

Env-Ws 386.61 Protection Of The Purity Of The Water Of Canobie Lake and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Canobie Lake which is the principle drinking water supply for the town of Salem.

(b) This section shall be effective within the Canobie Lake watershed above the dam which is located at approximate latitude 42° 47'30", longitude 71°15'06", in the towns of:

(1) Salem; and

(2) Windham.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Salem and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Canobie Lake public water supply in the towns of Salem and Windham for the purpose watershed sanitation and other sources of potential contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Salem in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The town of Salem shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Canobie Lake or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue, or maintain any privy, pig-pen, stable, or other building or structure in which horses, cattle, swine, or other animals or fowls are kept, within 75 feet of Canobie Lake's high water mark, or within 75 feet of any bay, cove, or inlet thereto;
- (2) A person shall not allow any sinkwater, urine, or water that has been used for washing or cleansing either materials, persons, or food, to run into said lake, or into any bay, cove or inlet thereof, or into any excavation or cesspool in the ground or on the surface of any ground, within 75 feet of said lake's high water mark, or of any bay, cove, or inlet;
- (3) A person shall not throw or deposit any dead animal, fish, or parts thereof, or food or any article perishable or decayable, or any dung, either human or animal, kitchen waste, swill or garbage, into said lake, or leave or permit any such waste to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said lake, or within 75 feet of such bay, cove or inlet;
- (4) No person shall bathe or swim in said lake;
- (5) No person shall keep a boat, either for public or private use, nor house-boat or other construction for use to float, steam, or sail upon said lake, or shall have, keep, or maintain a ship-closet, urinal, or other construction of easement which shall permit excrement or other offal to fall or empty into said lake;
- (6) A person shall not throw or deposit or allow to remain upon the ice of the waters of said lake or any bay, cove, or inlet thereof, any matter, waste, or materials such as are described in (2) and (3) above; and
- (7) A person shall not use a seaplane on said lake.

Env-Ws 386.64 Protection of the Purity of Lake Sunapee and its Watershed.

(a) The purpose of this rule is to protect the purity of water of Lake Sunapee which is the principle drinking water supply for the town of Sunapee.

(b) This section shall be effective within the Lake Sunapee watershed above the dam which is located at approximate latitude 43° 23'06", longitude 72° 04'55", in the towns of:

- (1) Newbury;
- (2) New London; and
- (3) Sunapee.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Sunapee and its agents may enter at reasonable times any land or property within the drainage areas associates with the tributaries to the Lake Sunapee public water supply in the towns of Newbury, New London and Sunapee for the purpose of investigating watershed sanitation and other sources of potential water pollution.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Sunapee, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The town of Sunapee shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Lake Sunapee and/or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) A person shall not build, continue, or maintain any privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of Lake Sunapee's, high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets;
- (2) A person shall not allow any sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, to run into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said pond's high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;
- (3) A person shall not throw or deposit any dead animal or fish, or parts thereof, or food or any article perishable or decayable, or any dung either human or animal, kitchen waste, swill, or garbage, into said pond, or leave or permit any such wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary thereto;
- (4) A person shall not throw any sawdust, or allow any sawdust to fall, into said lake or into any stream tributary thereto;

(5) No person shall bathe in said lake within one fourth mile of where water is taken for a public supply, or within like distance to any private intake pipe, provided notice to that effect is conspicuously posted in the vicinity;

(6) No person shall keep or maintain a boat, either for public or private use, nor house-boat or other construction for use to float, steam, or sail upon said lake, or shall have, keep, or maintain a ship closet, urinal, or other construction of easement which shall permit excrement or other offal to fall or empty into said lake. All boats carrying passengers shall be provided with water-tight tanks or receptacles which shall be kept in a good sanitary condition, and the contents thereof shall be disposed of at least one hundred feet from the shore of said lake's, high water mark, and 100 feet from any bay, cove, or inlet of said lake, or any stream tributary thereto, and in such manner as shall be satisfactory to the health authorities before mentioned;

(7) A person shall not throw, deposit or allow to remain upon the ice of the waters of said lake, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter waste or materials such as are described in (2), (3) and (4) above; and

(8) A person shall not use a sea plane on said lake.

Env-Ws 386.65 Protection of the Purity of Knowles Pond and Its Watershed.

(a) The purpose of this rule is to protect the purity of water of Knowles Pond which is the principle drinking water supply for the towns of Tilton-Northfield.

(b) This section shall be effective within the Knowles Pond watershed above the dam which is located at approximate latitude 43°25'41", longitude 71°35'57", in the town of Northfield.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Tilton-Northfield Aqueduct company and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Knowles pond water supply in the towns of Northfield and Tilton for the purpose of investigating or inspecting sewage and drainage systems and other sources of potential water pollution.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the Tilton-Northfield Water Company in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the company engaged in the performance of necessary duties for the protection and control of said pond.

(g) The Tilton-Northfield Aqueduct Company shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Knowles

Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue, or maintain any privy, pig-pen, stable, or other building or structure in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of said pond's high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets, except in such cases as the local board of Health may permit, upon the approval of the division, and under such rules as they may require;

(2) A person shall not run any sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said pond, meaning high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;

(3) A person shall not throw or deposit any dead animal or fish, or parts thereof, or food or any article perishable or decayable, or any dung either human or animal, kitchen waste, swill, or garbage into said pond, or leave or permit any such wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary;

(4) A person shall not deposit any sawdust, shavings, apple pomace, or waste from mills or factories, or allow any such wastes to fall into said pond, or upon their banks so near as to be reachable by the high water level, or into any stream tributary thereto;

(5) No person shall bathe in said pond;

(6) No person shall fish on said pond;

(7) None of the structures or conditions described in (2), (3), (4) and (5) above shall be permitted, beyond the minimum limit of 75 feet, if the purity of the water thereby shall be deemed by the division in accordance with Env-Ws 386.03 to be endangered;

(8) A person shall not throw, deposit or allow to remain upon the ice of the waters of said pond, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter, waste, or materials such as are described in (2), (3), (4) and (5) above; and

(9) A person shall not use a seaplane on said pond.

Env-Ws 386.66 Protection of the Purity of Unnamed Tributary of Tioga River.

(a) The purpose of this rule is to protect the purity of water of an unnamed tributary of the Tioga River which is a supplemental drinking water supply for the towns of Tilton and Northfield.

(b) This section shall be effective within the watershed above the dam which is located at approximate latitude 43°24'48", longitude 71°31'35", in the town of Northfield.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the Tilton-Northfield Aqueduct Company may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the referenced public water supply in the town of Northfield for the purpose of investigating or inspecting sewage and drainage systems or other sources of potential contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the Tilton-Northfield Aqueduct Company in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the company engaged in the performance of necessary duties for the protection and control of said pond.

(g) The Tilton-Northfield Aqueduct Company shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access this tributary. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

(1) A person shall not build, continue, or maintain any privy, pig-pen, stable, or other building or structures in which horses, cattle, swine or other animals or fowls are kept, within 75 feet of said pond's high water mark, or within 75 feet of any bay, cove, or inlet thereto, or within 75 feet of any stream tributary to said pond, bays, coves or inlets;

(2) A person shall not run any sink water, urine, or water that has been used for washing or cleansing either materials, persons, or food, into said pond, or into any bay, cove, or inlet thereof, or into any stream tributary thereto, or into any excavation or cesspool in the ground or on the surface of any ground within 75 feet of said pond's high water mark, or of any bay, cove, or inlet, or within 75 feet of any stream tributary thereto;

(3) A person shall not throw or deposit any dead animal or fish, or parts thereof, or food or any article perishable or decayable, or any dung either human or animal, kitchen waste, swill, or garbage into said pond, or leave or permit any such wastes to remain within 75 feet of the high water mark, or into any bay, cove, or inlet of said pond, or into any stream tributary thereto, or within 75 feet of such bay, cove, or inlet, stream or tributary;

(4) A person shall not deposit any sawdust, shavings, apple pomace, or waste from mills or factories, or allow any such waste to fall into said pond or upon its banks so near as to be reachable by the high water level, or into any stream tributary thereto;

(5) No person shall bathe in said pond;

(6) No person shall fish on said pond;

(7) None of the structures or conditions described in (1), (2), (3) and (4) above, shall be permitted, beyond the minimum limit of 75 feet, if the purity of the water thereby shall be deemed by the division in accordance with Env-Ws 386.03 to be endangered;

(8) A person shall not throw, deposit or allow to remain upon the ice of the waters of said pond, or upon that of any bay, cove, or inlet thereof, or of any stream tributary thereto, any matter, waste, or materials such as are described in (2), (3) and (4) above; and

(9) A person shall not use a seaplane on said waters.

Env-Ws 386.68 Protection of the Purity of the Water of Fassett Brook Reservoir.

(a) The purpose of this section is to protect the purity of water of Fassett Brook, the principle drinking water supply for the town of Troy.

(b) This section shall apply within Fassett Brook watershed above the reservoir dam which is located at approximate latitude 42°50'23", longitude 72°08'04", in the Town of Jaffrey.

(c) It shall be the duty of the Troy Water Department to enforce the rules, and any person violating any rule established by the division shall be punished by a fine for each offense. Any deviations from the above rules shall be by written consent from the Troy Water Department and the division.

(d) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(e) A person shall not build, continue or maintain any livestock, stable or other building or structures in which livestock are kept, within 75 feet of the Fassett Brook Reservoir or within 75 feet of any stream tributary thereto without the written approval of the Troy Water Department and the division, in accordance with Env-Ws 386.04.

(f) A person shall not discharge any industrial or domestic wastewater into the Fassett Brook Reservoir or into any stream tributary thereto.

(g) A person shall not throw or deposit any solid waste material into the Fassett Brook Reservoir, or leave or permit to remain within 75 feet of the reservoir, or any stream tributary thereto;

(h) A person shall not apply or store any fertilizer, pesticides, gasoline, oil or other hazardous chemicals or materials within 75 feet of the Fassett Brook Reservoir or any stream tributary thereto;

(i) A person shall not bathe in the Fassett Brook Reservoir;

- (j) A person shall not fish in the Fassett Brook Reservoir;
- (k) A person shall not boat in the Fassett Brook Reservoir; and
- (l) Easements granted to and memoranda of understanding with the Troy Water Department governing activities and land use on the watershed shall be enforceable under these rules and under RSA 485:24.

Env-Ws 386.69 Protection of the Purity of Upper Beech Pond and its Watershed.

(a) The purpose of this rule is to protect the purity of water of Upper Beech Pond which is the principle drinking water supply for the town of Wolfeboro.

(b) This section shall be effective within the Upper Beach Pond watershed above the dam which is located at approximate latitude 43°38'42", longitude 71°12'20", in the towns of:

(1) Tuftonboro; and

(2) Wolfeboro.

(c) Any person violating these rules shall, in accordance with RSA 485:26, be guilty of a misdemeanor if a natural person or guilty of a felony if any other person.

(d) Under the provisions of RSA 485:24, the town of Wolfeboro and its agents may enter at reasonable times any land or property within the drainage areas associated with the tributaries to the Upper Beach Pond public water supply in the towns of Tuftonboro and Wolfeboro for the purpose of investigating or inspecting sewage and drainage systems and other sources of potential water contamination.

(e) Where any provision of these rules is in conflict with state law or other local ordinances, the more stringent provision shall apply. These rules shall not amend or alter any federal or state law or rule or local ordinance or rule.

(f) Any deviations from these rules shall be by written consent of the division and the town of Wolfeboro, in accordance with Env-Ws 386.04. These provisions shall not apply to employees of the board of water commissioners engaged in the performance of necessary duties for the protection and control of said pond.

(g) The town of Wolfeboro shall post a summary of the prohibitions contained in (h) below at all public access locations where persons might reasonably be expected to access Upper Beach Pond or its tributaries. This posted summary may also contain any prohibitions enacted by local ordinance.

(h) These restrictions shall include:

- (1) No trespassing on town owned land around said pond will be allowed. This includes, but shall not limited to, hiking, camping, picnicking, horseback riding or use of any off-highway recreational vehicles at any time;

- (2) No boating, fishing, swimming or any use is allowed on or in the pond; and
- (3) The board of selectmen may grant special permission to enter this town owned land.
